June 2024

To our Partners in Education,

It is our pleasure to welcome your child into second grade. We are very excited to meet everyone and get to know you all. This year will be filled with excitement and learning. We will be having so much fun making friends, exploring and learning together.

We believe that learning is an enjoyable journey and your child will be given the tools and knowledge to develop and grow. In our classrooms the children will share ideas, express thoughts and learn not only from teachers but from one another. As parents, we are asking you to be our partners in education as we help our young learners grow in second grade. In first grade they spent most of their time learning to read. Now in second, we read to learn. We are excited to help them on this road.

Together we can help our young learners achieve many things this year. Know that we are here for you if you should ever need us. Please feel free to email us at any time and no question is too big or small. Remember, we are in this together.

We are excited to begin this new year with your child in second grade. Everyone gets first day jitters (even teachers☺) don't worry about it. When we see you on September 5th we will be there for you every step of the way.

As the school year gets closer we are getting more and more excited about all the fun and learning we are going to do together. Our classrooms will be a safe place to be ourselves, share ideas, express thoughts and become a community that respects one another! Enjoy the summer and we will see you in September!
